Syntegon appoints Eros Carletti as new Chief Financial Officer

- Eros Carletti joined Syntegon as new CFO effective January 6, 2025
- Dr. Peter Hackel resigned on December 31, 2024, after two successful years

Waiblingen (Germany), January 22, 2025. The Syntegon Group, a strategic partner to the global pharmaceutical and food industries, has appointed Eros Carletti as new Chief Financial Officer (CFO). He joined the company on January 6, 2025. Eros Carletti succeeds Dr. Peter Hackel, who left Syntegon on December 31, 2024, following two successful years as CFO.

Eros Carletti brings a wealth of experience and a proven track record in finance leadership to his new position. He held roles of increasing responsibility at General Electric for over 16 years. Since 2018, he served as CFO of DSM's nutrition business and, most recently, as Chief Transformation Officer of the newly formed dsm-firmenich Group. He holds a business degree from Bocconi University in Milan.

"We are very pleased to welcome such an experienced and highly motivated CFO," says Torsten Türling, CEO of the Syntegon Group. "Eros is the ideal fit to support the acceleration of our growth strategy. His expertise will help us deepen financial analysis, simplify processes, and drive M&A and IT transformation – key elements for the next phase of the Syntegon journey."

Dr. Peter Hackel left Syntegon on December 31, 2024, to pursue a new professional opportunity. "Peter Hackel played a pivotal role in advancing Syntegon's finance function over the past two years," says Torsten Türling. "His contributions have been invaluable to our success. We thank him for his continued support and wish him all the best for the future."

About Syntegon

Syntegon is pharmaceutical and food companies' strategic partner for processing and packaging technology. Its 6,300-strong workforce delivers seamless processes, innovative technologies, and sustainable solutions to both industries. Syntegon's integrated lines enable pharmaceutical companies to produce, process, fill, inspect, and package liquid and solid medicines, safely and in high quality. Food companies, in turn, count on Syntegon's flexible, reliable systems to produce and package confectionery as well as dry and frozen comestibles. Headquartered in the Stuttgart region, Germany, Syntegon can look back on more than 160 years of experience. In 2023, the company posted annual sales of 1.5 billion euros. With a global presence of more than 35 locations in almost 20 countries and a comprehensive service portfolio, Syntegon provides a platform for seamless processes for its customers. The company's 1,400 employees in research and development work on leading technologies every day – 2,100 patents and patent applications are proof of the processing and packaging expert innovative strength. By providing sustainable solutions, Syntegon enables the industry to switch to alternative packaging and resource-conserving production processes.
