Syntegon donates to Crailsheim food bank

- Company hands over a check for 2,000 euros
- Money goes to fund new food refrigeration equipment
- Renewed donation made in the spirit of long-term cooperation

Crailsheim, January 29, 2024. Syntegon has donated 2,000 euros to the Crailsheim food bank. The charity organization aims to use the money to replace faulty electrical appliances that are essential to feeding people in need. To this end, Syntegon site manager Stephan März recently presented a check to Karin Coffey, who heads up the local food bank in Crailsheim.

The Crailsheim food bank has been struggling with some challenges lately: Refrigerators and a refrigerated truck broke down during the run-up to Christmas season, jeopardizing a source of food to people in need. "We are very happy to be assisting the food bank in this difficult situation. With our donation, we want to make sure the organization can drive on with its important mission of helping disadvantaged people in the region," says Stephan März, site manager at Syntegon Crailsheim.

Every day, the Crailsheim pantry caters to members of around 100 to 120 households. People in need can buy donated food and hygiene products at discounted prices from its store. Determined to prevent any food from going to waste, the organization also prepares affordable lunch meals as part of its daily "soup get-together." Beyond that, the pantry operates a furniture store, a second-hand clothes shop, a launderette, and shower facilities.

Perishable food has to be refrigerated on the way to the food bank and before it is sold or prepared. "Thanks to Syntegon's donation, we are able to use new refrigerators and refrigerated trucks for this purpose," says Karin Coffey, who manages the food bank in Crailsheim. Stephan März adds, "The Syntegon Group provides packaging machines not only to the pharmaceutical industry; but also to the food industry. That's why helping to keep people fed is a cause near and dear to our hearts."

The Crailsheim pantry has been furnishing food and drugstore items to disadvantaged people since late 2005. These goods are donated by supermarkets, bakeries, and drugstores in the greater Crailsheim region. The food bank is financed exclusively by donations and income from its store. Syntegon had already supported the food bank financially in the previous year

About Syntegon

Processing and packaging for a better life – this is what 5,800 Syntegon employees work for every day. Be it with individual machines, systems, or services, Syntegon helps its customers in the global pharmaceutical and food industries to improve people's lives. The company, which is headquartered in Waiblingen, Germany, looks back on more than 160 years of experience and achieved annual sales of 1.4 billion EUR in 2022. In the pharma sector, the company's intelligent solutions enable the safe and high-quality production, processing, filling, inspection, and packaging of liquid and solid pharmaceuticals. In the food industry, Syntegon's flexible and reliable technologies produce and pack confectionery, dry food, frozen food, and dairy products. With 1,100 service experts and a comprehensive service portfolio throughout the entire machine lifecycle from spare parts management to digital line optimization, Syntegon lays the foundation for smooth production processes for all customers. More than 35 sites in almost 20 countries keep a firm eye on Syntegon's impact on the environment and society. Syntegon is a leader in the development of sustainable packaging solutions, reduces the energy consumption of its machines and pursues ambitious goals to lower its emissions. www.syntegon.com
