Packaging for a good cause – Ampack makes Christmas wishes come true

- Ampack employees fulfill Christmas wishes for children and adolescents
- Joint initiative with the Fritz-Felsenstein-Haus für Körperbehinderte
- “Packaging for a good cause” drive supports youngsters’ participation and inclusion

Königsbrunn, December 15, 2023. The end of the year is approaching, and with it the season of giving and reflection. For Ampack, a Syntegon Group company, this is a good time to spare a thought for those who face special challenges in life. The enterprise, which specializes in filling and packaging technology, staged a wishing tree drive at its Königsbrunn site to bring joy to children and adolescents with physical disabilities.

Its workforce took this opportunity to fulfill youngsters’ Christmas wishes as part of the “Packaging for a good cause” campaign. In the original German motto, *Verpacken für einen guten Zweck*, the word *Verpacken* means both packaging and wrapping. Each participant was asked to choose a wish, get a present, and – of course – wrap it up nicely. The Fritz-Felsenstein-Haus is a center of excellence for people with physical and multiple disabilities. It provides care, support, therapy, and consulting for physically disabled children, adolescents, and adults. Ampack has supported this facility for many years.

On December 13, Ampack GmbH general manager Markus Schlumberger and campaign initiator Nadine Rienhardt handed over 53 gifts to representatives of the Fritz-Felsenstein-Haus. The latter are going to distribute the gifts to their charges. “The wishing tree drive is right in line with our mission statement, processing and packaging for a better life,” says Markus Schlumberger. “We are delighted to see our employees so committed to fulfilling the Christmas wishes of kids in our region. All their wishes were granted in no time at all.”

About Syntegon

Processing and packaging for a better life – this is what 5,800 Syntegon employees work for every day. Be it with individual machines, systems, or services, Syntegon helps its customers in the global pharmaceutical and food industries to improve people's lives. The company, which is headquartered in Waiblingen, Germany, looks back on more than 160 years of experience and achieved annual sales of 1.4 billion EUR in 2022. In the pharma sector, the company's intelligent solutions enable the safe and high-quality production, processing, filling, inspection, and packaging of liquid and solid pharmaceuticals. In the food industry, Syntegon's flexible and reliable technologies produce and pack confectionery, dry food, frozen food, and dairy products. With 1,100 service experts and a comprehensive service portfolio throughout the entire machine lifecycle from spare parts management to digital line optimization, Syntegon lays the foundation for smooth production processes for all customers. More than 35 sites in almost 20 countries keep a firm eye on Syntegon's impact on the environment and society. Syntegon is a leader in the development of sustainable packaging solutions, reduces the energy consumption of its machines and pursues ambitious goals to lower its emissions. www.syntegon.com
